

DELTABLOC®
HOME OF ROAD SAFETY

Smart production is our passion

COMPLETE EQUIPMENT OVERVIEW
PRODUCTION MADE EASY

DELTABLOC®

HOME OF ROAD SAFETY

Founded in the year 2000 and headquartered in Austria, DELTABLOC® is the world's leading developer of concrete and steel vehicle restraint systems and of modern noise protection systems. For over 25 years we have been making every effort to create a safe environment for all road users. We have several subsidiaries in Europe and South Africa, licence partners worldwide and our restraint systems are installed in over 45 countries.

SMART PRODUCTION IS OUR PASSION

DELTABLOC® partners can increase their productivity through our know-how of production processes. We support planning from hall layout to managing stock, provide training to increase efficiency and analyse commonly the current production procedures. Our knowledge for your success.

DELTABLOC® offers premium equipment for the following categories:

PERMANENT BARRIERS

TEMPORARY BARRIERS

NOISE BARRIERS

+

OTHER EQUIPMENT AND ACCESSORIES

OUR GOAL

The best equipment for the most efficient production of precast safety barriers.

EQUIPMENT
smart & durable

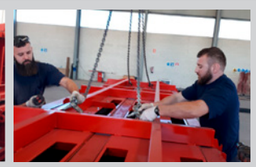
Whether new or used – we guarantee dimensional accuracy and best quality of the mould properties.

QUALITY
certified & traceable

With the CE certification we guarantee that all test-relevant parts fulfill the most stringent requirements.

PRODUCTION
optimised & standardised

Especially for new products or for new production partners we provide extensive training. Together we increase productivity and output.



THE DELTABLOC® EQUIPMENT OVERVIEW

MOULDS FOR PERMANENT SAFETY BARRIERS

SL 70
Single-Gang Mould
Article number: 222885

Moulding equipment for production of SL 70 safety barriers.

Recommended selling price: € 11,990.-
(excluding packaging and transport)

SL 70
Three-Gang Mould
Article number: 215034

Moulding equipment for production of SL 70 safety barriers.

Recommended selling price: € 46,990.-
(excluding packaging and transport)

DB 80 T180S –
DB 80A/F/P T150S
Double-Gang Mould
Article number: 151481

Combination mould that enables fabrication of various DB 80 barrier types. Can be adjusted to different versions.

Recommended selling price: € 27,990.-
(excluding packaging and transport)

DB 80AS-E T150S
Double-Gang Mould
Article number: 148060

Moulding equipment for production of DB 80AS-E safety barriers.

Recommended selling price: € 28,990.-
(excluding packaging and transport)

DB 80E T150S
Double-Gang Mould
Article number: 149216

Moulding equipment for production of DB 80E safety barriers.

Recommended selling price: € 28,990.-
(excluding packaging and transport)

DB 100 T250E
Double-Gang Mould
Article number: 159217

Moulding equipment for production of DB 100 safety barriers.

Recommended selling price: € 27,990.-
(excluding packaging and transport)

DB 120S / DB 120S-A
DB 120S-F / DB 120 S-P
T280E
Double-Gang Mould
Article number: 146957

Combination mould that enables fabrication of various DB 120S barrier types. Can be adjusted to different versions.

Recommended selling price: € 31,990.-
(excluding packaging and transport)

DB 185AS-A
Single-Gang Mould
Article number: 229097

Moulding equipment for production of DB 185AS-A safety barriers.

Recommended selling price: € 29,990.-
(excluding packaging and transport)

MOULDS FOR TEMPORARY SAFETY BARRIERS

SB 50 / SB 50S
Four-Gang Mould
Article number: 108832

Moulding equipment for production of SB 50 / SB 50S workzone barriers.

Recommended selling price: € 39,990.-
(excluding packaging and transport)

SB 70 / SB 70P
Three-Gang Mould
Article number: 151062

Moulding equipment for production of SB 70 / SB 70P workzone barriers.

Recommended selling price: € 44,990.-
(excluding packaging and transport)

MOULDS FOR NOISE BARRIERS

DB 80 NBF /
DB 80A/F/P NBF
Double-Gang Mould
Article number: 189649

Moulding equipment for production of DB 80 NBF / DB 80A/F/P NBF noise barriers.

Recommended selling price: € 26,990.-
(excluding packaging and transport)

DB 100 NBF /
DB 100P NBF
Single-Gang Mould
Article number: 160613

Moulding equipment for production of DB 100 NBF / DB 100P NBF noise barriers.

Recommended selling price: € 29,990.-
(excluding packaging and transport)

DB 150 NBF
Single-Gang Mould
Article number: 164399

Moulding equipment for production of DB 150 NBF noise barriers.

Recommended selling price: € 31,990.-
(excluding packaging and transport)

BHB Panel
Double-Gang Mould
Article number: 222014

Moulding equipment for production of BHB noise protection panels.

Price on request

OTHER EQUIPMENT AND ACCESSORIES

Mechanic Grab
BSZ-KH 6.0
Article number: 121204

Mechanical grab for installation of symmetric concrete barrier elements up to 6 tons maximum load.

Recommended selling price: € 11,990.-
(excluding packaging and transport)

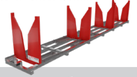
Mechanic Grab
FTZ-Uni-25
Article number: 170908

Mechanical grab for installation of concrete barrier elements up to 2.5 tons maximum load.

Recommended selling price: € 3,590.-
(excluding packaging and transport)

Trestle for DB Mesh
Trestle for Single Bar Reinforcement

For accurate assembly of DB Mesh. Can be used for various systems.



Price on request

Turning Device M 160 kN
(for Moulds)
Article number: 179135

Turning Device M 220 kN
(for Moulds)
Article number: 206128

For turning of moulds up to 22 tons maximum load.

Recommended selling price: € 27,990.-
M 160 kN
(excluding packaging and transport)

Recommended selling price: € 34,990.-
M 220 kN:
(excluding packaging and transport)

Turning Device E 65 kN
(for Barrier Elements)
Article number: 62118

For turning of concrete barrier elements up to 6.5 tons maximum load.

Recommended selling price: € 23,990.-
(excluding packaging and transport)

MODULAR MOULDS

The DELTABLOC® equipment convinces with numerous mould features, such as high-quality sealing and removable parts for simple handling, increasing quality and efficiency in the production process.

Other well-designed mould features support the product variety. Different barrier types can be realised with just one mould base body.

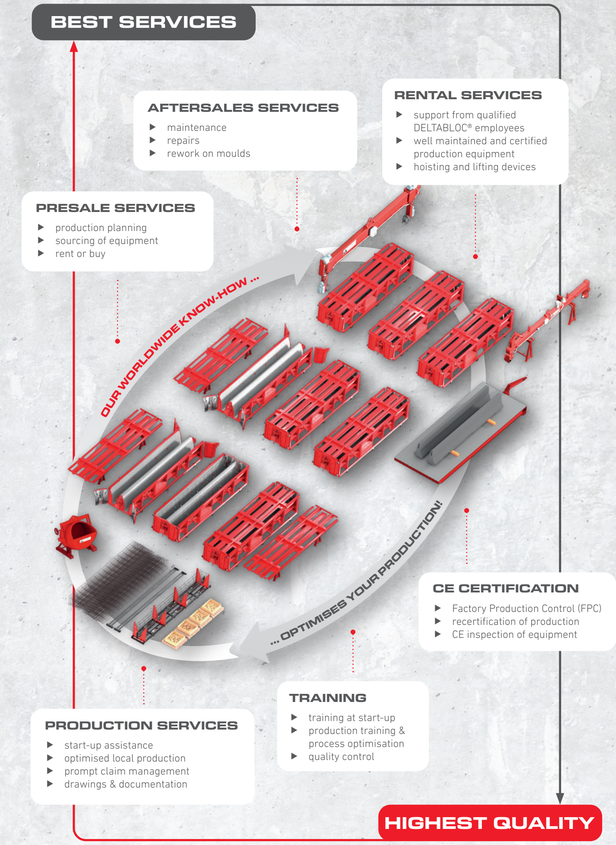
Increase your productivity with DELTABLOC® moulds!

WE ALSO OFFER

- moulds for special elements, transition elements, fitting elements and short elements with tight curve radii.
- flexible mould rental options to help you meet peak production demands without the need to invest in additional equipment for temporary capacity increases.

Please ask your respective DELTABLOC® Sales contact for further details.

All prices are exclusive of VAT and subject to change.



DELTABLOC® PRODUCTION SERVICES
FOR OPTIMISED PERFORMANCE

We provide premium equipment, components and services
for your efficient production.
