THE SMART SB 50

The efficient safety barrier
for workzones

Optimized
workzone
protection

Ultralight

- ▶ only **750kg** per 6m element
- ▶ especially **pavement-friendly** with a ground pressure of only 0.16kg/cm²
- ▶ **improved drainage** performance due to innovative base construction

Super-slim

- ▶ base width only **24cm**
- ▶ element core width **10cm**
- ▶ working width **70cm** at containment level T3

Super-fast

- ▶ **doubled** transportation volume (concrete barriers)
- ▶ „slip & lock“ installation **without loose parts**
- ▶ a two-man team can install **up to 400lm/h**

Benefit from our service package
